

Section: Narratives - Needs Assessment

Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the Return on Investment of Summer school Programs in Pennsylvania study determined that for every dollar invested in summer school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link PSAYDN.org](#)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three-part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

Section 1 - Needs Assessment: In this section, LEAs are asked to describe the impact of the pandemic on their students since March 2020.

Indicators of Impact

1. Describe how the LEA identified students for inclusion in a summer school program. Include a brief description of the indicators used in the decision-making process.

The district targeted students who showed the greatest academic or social emotional need to be part of the after-school programming. Indicators included information gathered on the DIBELS scores, Exact Path scores (diagnostic), content grades, Tier I and Tier II intervention

team data, Student Assistant Team data, and informal data collected during the grade level teams.

Section: Narratives - Summer School Program Questions

Summer School Program Questions: In this section, LEAs are asked to describe the activities they have designed to provide summer school programming for their students.

2. Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Children from Low-Income Families	Academic Growth	20	pre and post assessment data and diagnostic tool outcomes based on areas of need as identified by local data (DIBELS, benchmark assessments, and diagnostic data)
Children with Disabilities	Academic Growth	15	pre and post assessment data and diagnostic tool outcomes based on areas of need as identified by local data (DIBELS, benchmark assessments, and diagnostic data)
Students Experiencing Homelessness	Emotional Wellness	2	pre and post assessment data and diagnostic tool outcomes based on areas of need as identified by local data (DIBELS, benchmark assessments, and diagnostic data)

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Youth in Foster Care	Emotional Wellness	2	pre and post assessment data and diagnostic tool outcomes based on areas of need as identified by local data (DIBELS, benchmark assessments, and diagnostic data)

3. Describe the evidence-based resources that will be used to support student growth during the summer school program.

The district will use content material that it uses within the ELA and math curriculum. Students will also be given the opportunity to make up lost credits through a credit recovery process. Various lessons will be taught to students from our SEL curriculum used during the school year.

4. Describe the staff that will provide the summer school program (i.e., internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role
3	Internal Provider	Educators
1	Internal Provider	Support Staff

a. The LEA assures it understands it is responsible to offer the work to its internal employees prior to engaging outside entities.

b. The LEA assures it understands it is responsible to ensure that all summer school program

staff hold the appropriate certifications for the program that is being delivered.

5. How will the LEA assess the success of the summer school program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
Credit Recovery Courses	Monthly	Students will complete online modules created by teaching staff to attain credit for unfinished learning for school years prior to the pandemic.

6. How will the LEA engage families in the summer school program?

The LEA will provide families with an overview of the program, the educational and social emotional outcomes, and provide support to families when needed and eligible through our community and school-based behavioral health partners.

Section: Budget - Instruction Expenditures

Instruction Expenditures

Budget
 \$28,242.00
Allocation
 \$28,242.00

Budget Over(Under) Allocation
 \$0.00

Budget Summary

Function	Object	Amount	Description
1000 - Instruction	100 - Salaries	\$23,000.00	Salaries for summer school teachers
1000 - Instruction	600 - Supplies	\$5,242.00	Supplies for summer school learning
		\$28,242.00	

Section: Budget - Support and Non-Instructional Expenditures

Support and Non-Instructional Expenditures

Budget
\$28,242.00
Allocation
\$28,242.00

Budget Over(Under) Allocation
\$0.00
